

YOUR 16-WEEK HALF MARATHON INTERMEDIATE TRAINING PLAN

This plan builds from being comfortable running 5-10km and focuses on developing Endurance & Speed.

BASE BUILDING

When building the time on your feet during the Sunday Endurance Runs, think about your route. You can use the session to explore with friends. Head to your local park and map out a route. Running loops can be a great way to focus your pacing and know that you're not too far away from home should you need to cut the session short.

RACE READY!

This is the final block of training. We have a couple of hard weeks followed by a taper and race day. It's important to listen to your body throughout this block. The most important thing is to feel strong when we get to the start line, so if you feel that an extra rest day would be beneficial, take it.
